

Call for Proposals

The Toronto RDC presents...

Data Day:

Stories Data Tell

Thursday April 27, 2017

Blackburn Room, 4036, Robarts Library

The Toronto RDC invites its researchers to present the stories that their research tells.

Data Day: Stories Data Tell is an opportunity for RDC researchers to present their findings and research/data issues in a relaxed, collegial environment. You may present preliminary findings, research/data issues – tell us what your research tells you!

Dr. Valerie Tarasuk will open the day with a keynote. A round table open discussion will be held at the end of the day so that participants can converse and network.

Please limit proposals to 250 words.

Submit your proposal by Feb 8, 2017, to
